

# Puresthetics

## Featured Product

The eye area is very delicate. The skin around the eye is much thinner than on the rest of the face. This means it is likely to dehydrate faster, in turn creating fine lines and creping. Suki's eye repair balm has organic carrot and evening primrose oils to lock in moisture, reduce fine lines and help prevent premature aging.

Was \$33.95 Now Only \$28

## Dry Lips?

Try these few simple steps to preventing and healing dry, chapped lips.

1. Use a soft toothbrush to exfoliate dead skin cells.
2. Licking your lips will NOT moisturize them.
3. Use a healing salve such as Carmex. It has salicylic acid and camphor to kill bacteria and heal skin tissue.

Introducing Vivant Pharmaceuticals. A medical grade line of skin care products created by the chemist who brought us Retin A (Dr. Fulton) The doctor received his PhD in Biochemistry from the University of Miami, and after extensive training he opened a private practice medical office and created the skin care line to conquer the treatment of acne and skin rejuvenation.

With an extremely high concentration of “active” ingredients such as Lactic and Mandelic acids, and Vitamin A, these products are guaranteed to provide results.

Whether the issue is acne, uneven pigmentation, or dehydration Vivant is sure to create a balanced, even complexion.

Call with questions regarding Vivant or to schedule a facial treatment today.
